Activist Scholar Jul 24 2019 Activist Scholar: Selected Works of Marilyn Gittell features seminal writings by Marilyn Gittell, a preface by Sara Miller McCune (Founder and Executive Chairman, SAGE Publications), a general introduction by Ross Gittell and Kathe Newman, and part introductions by Ross Gittell, Kathe Newman, Maurice Berube, and Nancy Naples. The part introductions highlight the key areas of research Marilyn Gittell championed and provide insightful context for the articles that follow. In addition to exploring Marilyn Gittell's groundbreaking research, this book serves as a bridge to current and future community-based urban research that advances citizen participation and empowerment. Marilyn Gittell was a renowned scholar and social activist. A graduate of Brooklyn College (BA) and New York University (PhD), she held her first faculty appointment at Queens College (1960-1973) before serving as Associate Provost (1973-1978) at Brooklyn College. She then joined the faculty of the City University of New York's Graduate Center (1978-2010) as Professor of Political Science. She helped launch and was the founding editor of Urban Affairs Quarterly, the leading academic journal in the field of urban research. Activist Scholar highlights Professor Gittell's writings on community organizations, citizen participation, urban politics, the politics of education, and gender. She specialized in applied and comparative research on local, regional, national, and international policies and politics, and placed a high priority on training researchers and scholars. Marilyn Gittell was a mentor to hundreds of students in the City University of New York system, and her legacy of activism continues as her students, now on the faculties of universities across the nation, engage in important work globally.

Research Synthesis and Meta-Analysis Aug 05 2020 The Fifth Edition of Harris Cooper's bestselling *Research Synthesis and Meta-Analysis: A Step-by-Step Approach* offers practical advice on how to conduct a synthesis of research in the social, behavioral, and health sciences. The book is written in plain language with four running examples drawn from psychology, education, and health science. With ample coverage of literature searching and the technical aspects of meta-analysis, this one-of-a-kind book applies the basic principles of sound data gathering to the task of producing a comprehensive assessment of existing research.

She Reads Truth Mar 24 2022 She wants faith, hope, and love. She wants help and healing. She wants to hear and be heard, to see and be seen. She wants things set right. She wants to know what is true—not partly true, or sometimes true, or almost true. She wants to see Truth itself, face-to-face. But here, now, these things are all cloudy. Hope is tinged with hurt. Faith is shaded by doubt. Lesser, broken things masquerade as love. How does she find something permanent when the world around her is always changing, when not even she can stay the same? And if she finds it, how does she hold on? She Reads Truth tells the stories of two women who discovered, through very different lives and circumstances, that only God and His Word remain unchanged as the world around them shifted and slipped away. Infused with biblical application and Scripture, this book is not just about two characters in two stories, but about one Hero and one Story. Every image points to the bigger picture—that God and His Word are true. Not because of anything we do, but because of who He is. Not once, not occasionally, but right now and all the time. Sometimes it takes everything moving to notice the thing that doesn't move. Sometimes it takes telling two very different stories to notice how the Truth was exactly the same in both of them. For anyone searching for a solid foundation to cling to, She Reads Truth is a rich and honest Bible-filled journey to finally find permanent in a world that's passing away.

The Routledge Handbook of Developments in Digital Journalism Studies Oct 26 2019 The Routledge Handbook of Developments in Digital Journalism Studies offers a unique and authoritative collection of essays that report on and address the significant issues and focal debates shaping the innovative field of digital journalism studies. In the short time this field has grown, aspects of journalism have moved from the digital niche to the digital mainstay, and digital innovations have been 'normalized' into everyday journalistic practice. These cycles of disruption and normalization support this book's central claim that we are witnessing the emergence of digital journalism studies as a discrete academic field. Essays bring together the research and reflections of internationally distinguished academics, journalists, teachers, and researchers to help make sense of a reconceptualized journalism and its effects on journalism's products, processes, resources, and the relationship between journalists and their audiences. The handbook also discusses the complexities and challenges in studying digital journalism and shines light on previously unexplored areas of inquiry such as aspects of digital resistance, protest, and minority voices. The Routledge Handbook of Developments in Digital Journalism Studies is a carefully curated overview of the range of diverse but interrelated original research that is helping to define this emerging discipline. It will be of particular interest to undergraduate and postgraduate students studying digital, online, computational, and multimedia journalism.

Policy Entrepreneurship Jun 26 2022 Policy entrepreneurs engage in collaborative action to promote broad societal changes. They distinguish themselves from other political actors through their willingness to promote policy innovations that are new within specific contexts. Policy Entrepreneurship: An Asian Perspective showcases an exciting collection of new research studies. Previous studies of policy entrepreneurship within specific contexts across this vast region have confirmed the explanatory power of the concept, even though the political systems under investigation are distinct from the political system in the United States, where the notion of policy entrepreneurship was coined. This book is the first ever comprehensive compilation of research on policy entrepreneurship in Asia, and focused on policy change in China, India, Indonesia, Singapore and Thailand. All the studies gathered here assess the agency of policy entrepreneurs within broader structures that present them with both opportunities and constraints. In their different ways, each chapter explores how structural changes, specific strategies used by policy entrepreneurs, and the practice of boundary spanning shape policy agendas. The scholarship on display offers an inspiring treasure trove of ideas, insights, concepts, and research strategies. This book will prompt new scholarship on policy entrepreneurs and the crucial role they play in contemporary politics, in Asia and globally. The chapters in this book were originally published in the Journal of Asian Public Policy.

De Malo Feb 08 2021 The De Malo represents some of St. Thomas Aquinas' most mature thinking on goodness, badness, and human agency. Together with the second part of the Summa Theologiae, it is one of his most sustained contributions to moral philosophy and theology. Aquinas examines the full range of questions associated with evil: its origin, its nature, its variety, its relation to good, and its compatibility with the existence of an omnipotent, benevolent God. This edition offers the Leonine Commission's authoritative edition of the Latin text with a new, clear, and readable English translation by Richard Regan with an extensive introduction and notes by Brian Davies.

Varieties of Democracy Aug 29 2022 Varieties of Democracy is the essential user's guide to the Varieties of Democracy project (V-Dem), one of the most ambitious data collection efforts in comparative politics. This global research collaboration sparked a dramatic change in how we study the nature, causes, and consequences of democracy. This book is ambitious in scope: more than a reference guide, it raises standards for causal inferences in democratization research and introduces new, measurable, concepts of democracy and many political institutions. Varieties of Democracy enables anyone interested in democracy—teachers, students, journalists, activists, researchers and others—to analyze V-Dem data in new and exciting ways. This book creates opportunities for V-Dem data to be used in education, research, news analysis, advocacy, policy work, and elsewhere. V-Dem is rapidly becoming the preferred source for democracy data.

Estate Regeneration and Its Discontents Nov 07 2020 Public housing estates are disappearing from London's skyline in the name of regeneration, while new mixed-tenure developments are arising in their place. This richly illustrated book provides a vivid interdisciplinary account of the controversial urban policy of demolition and rebuilding amid London's housing crisis and the polarisation between the city's have-nots and have-haves. Drawing on extensive fieldwork and interviews with over 180 residents living in some of the capital's most deprived areas, Watt shows the dramatic ways that estate regeneration is reshaping London, fuelling socio-spatial inequalities via state-led gentrification. Foregrounding resident experiences and perspectives both before and during regeneration, he examines class, place belonging, home and neighbourhood, and argues that the endless regeneration process results in degeneration, displacement and fragmented communities.

John Chrysostom and the Jews Jun 14 2021 John Chrysostom, the golden mouth, the greatest preacher in the early church and a key figure during the transition from the ancient to the Byzantine and medieval worlds, is known as a vehement critic of the Jews. In this study, Robert Wilken presents a new interpretation of John's homilies against the Jews, setting them in the context of the pluralistic society of fourth-century Antioch and against the tradition of ancient rhetoric. In reading John's homilies, Wilken argues, we must not impose on them the anti-Jewish attitudes of medieval times, when Christianity was the dominant force in the West and Judaism was a minority religion. In John's time, Christianity was only one, and by no means the most self-assured, of the cultural forces in Antioch. It had to compete with an established Jewish community and with the classical pagan tradition that underlay education and public life. In 363, the Roman emperor Julian, who had apostatized Christianity to embrace the traditional pagan religion, attempted to rebuild the Jewish Temple in Jerusalem. He terrified the Christians, who saw in the Temple's ruins proof of the truth of their religion. Wilken examines John's sermons against this atmosphere of intense religious rivalry and lively polemic between Christians, Jews, and pagans. His book calls not only for a fresh look at John Chrysostom but also for a reconsideration of the continued importance of Judaism in late antique society and in the history of Christianity. Its conclusions will be of interest to historians and theologians, and to participants in the present-day Jewish-Christian dialogue.

Handbook of Research on Interdisciplinary Reflections of Contemporary Experiential Marketing Practices Sep 05 2020 Technology has brought many innovations and changes in experiential design and experiential products and services. The digital transformations brought about by technology have led to problem-solving, creative functioning, and unique improvements along with experiences. Human-digital experience interaction prevails in many areas of modern society, and in order to evaluate this interaction, a more balanced understanding of digital and experience processes is required. The Handbook of Research on Interdisciplinary Reflections of Contemporary Experiential Marketing Practices discusses innovative research on experiential marketing and evaluates the interdisciplinary reflections of practices from different perspectives. The book also explores how the concept of experience is developed, managed, and marketed according to current consumer needs and motivations. Covering critical topics such as experience economy and tourism experience management, this reference work is ideal for managers, marketers, hospitality professionals, academicians, practitioners, scholars, researchers, instructors, and students.

Britain and Europe Jun 02 2020 Amid the ongoing Brexit crisis, both sides are appealing to Britain's past relationship with Europe to justify their positions. But much specious history is presented to

argue for either the closeness or distance of our political, cultural and economic links with 'the Continent'. We urgently need a dispassionate account of how Britain's history truly fits into a European context. How similar has Britain been to other European countries, and in what respects? Do Brits feel European, and have they taken an interest in events on the Continent, or has their distance from Europe led to insularity and xenophobia? Finally, how involved in European affairs has Britain been over the last several hundred years? Jeremy Black's fresh and trenchant analysis sets an increasingly politicised British history in its real European context.

Constructing Organizational Life Jul 04 2020 Across the social sciences, scholars are increasingly showing how people 'work' to construct organizational life, including the rules and routines that shape and enable organizational activity, the identities of people who occupy organizations, and the societal norms and assumptions that provide the context for organizational action. The idea of work emphasizes the ways in which people and groups engage in purposeful, reflexive efforts rooted in an awareness of organizational life as constructed in human interaction and changeable through human effort. Studies of these efforts have identified new forms of work including emotion work, identity work, boundary work, strategy work, institutional work, and a host of others. Missing in these conversations, however, is a recognition that these forms of work are all part of a broader phenomenon driven by historical shifts that began with modernity and dramatically accelerated through the twentieth century. This book introduces the social-symbolic work perspective, which addresses this broader phenomenon. The social-symbolic work perspective integrates diverse streams of research to examine how people purposefully and reflexively work to construct organizational life, including the identities, technologies, boundaries, and strategies that constitute their organizations. In this book, the authors define social-symbolic work and introduce three forms - self work, organization work, and institutional work. Social-symbolic work highlights people's efforts to construct the social world, and focuses attention on the motivations, practices, resources, and effects of those efforts. This book explores eight distinct streams of social-symbolic work research, drawing on a broad range of examples from the worlds of business, politics, sports, social movements, and many others. It provides researchers, students, and practitioners with an integrative theoretical framework useful in understanding social-symbolic work, a survey of the main forms of social-symbolic work, a rich set of theoretical opportunities to inspire new studies, and practical methodological guidance for empirical research on social-symbolic work.

Cultural Studies Review Oct 31 2022 The October 2008 Cultural Studies Review is a special issue focusing on cultures of panic, particularly recent examples of moral panic arising from issues of race, gender and sexuality. The diverse essays deal with 'men of Middle Eastern appearance', the trial of Private Kovko, the aftermath of Hurricane Katrina, the use of Ritalin, concerns around children and sexuality in Australia, and arts funding in the United States during the 'culture wars'. The moral panic has centrally to do with the behaviour of crowds, particularly the virtual crowds created by the mass media. It's a mechanism of expulsion, and thus at the same time of group solidarity. It's also a particularly powerful genre of the tabloid media: in its identification and shaming of deviant social groups it rigidly defines and reinforces moral norms, and is complicit with political strategies of consolidation and othering which create and depend on a sense of horror at refugees who willfully throw their children overboard or push in to the front of the 'queue', at paedophiles grooming children over the internet, at drug-crazed criminals and bingeing teenagers... The challenge is to move beyond the realisation that moral panics are not rationally constructed to an analysis of the passion bases of the social order, and to an understanding of how our politics might deal with this without itself falling into the contagion of panic. The diverse collection of essays gathered together in this edition takes up that challenge.

Red State Revolt Dec 29 2019 An indispensable window into the changing shape of the American working class and American politics Thirteen months after Trump allegedly captured the allegiance of "the white working class," a strike wave—the first in over four decades—rocked the United States. Inspired by the wildcat victory in West Virginia, teachers in Oklahoma, Arizona, and across the country walked off their jobs and shut down their schools to demand better pay for educators, more funding for students, and an end to years of austerity. Confronting all expectations, these working-class rebellions erupted in regions with Republican electorates, weak unions, and bans on public sector strikes. By mobilizing to take their destinies into their own hands, red state school workers posed a clear alternative to politics as usual. And with similar actions now gaining steam in Los Angeles, Oakland, Denver, and Virginia, there is no sign that this upsurge will be short-lived. Red State Revolt is a compelling analysis of the emergence and development of this historic strike wave, with an eye to extracting its main strategic lessons for educators, labor organizer, and radicals across the country. A former high school teacher and longtime activist, Eric Blanc embedded himself into the rank-and-file leaderships of the walkouts, where he was given access to internal organizing meetings and secret Facebook groups inaccessible to most journalists. The result is one of the richest portraits of the labor movement to date, a story populated with the voices of school workers who are winning the fight for the soul of public education—and redrawing the political map of the country at large.

The Pale King Apr 24 2022 The agents at the IRS Regional Examination Center in Peoria, Illinois, appear ordinary enough to newly arrived trainee David Foster Wallace. But as he immerses himself in a routine so tedious and repetitive that new employees receive boredom-survival training, he learns of the extraordinary variety of personalities drawn to this strange calling. And he has arrived at a moment when forces within the IRS are plotting to eliminate even what little humanity and dignity the work still has. The Pale King remained unfinished at the time of David Foster Wallace's death, but it is a deeply compelling and satisfying novel, hilarious and fearless and as original as anything Wallace ever undertook. It grapples directly with ultimate questions—questions of life's meaning and of the value of work and society—through characters imagined with the interior force and generosity that were Wallace's unique gifts. Along the way it suggests a new idea of heroism and commands infinite respect for one of the most daring writers of our time.

On Revision May 02 2020 A trusted editor turns his attention to the most important part of writing: revision. So you've just finished writing something? Congratulations! Now revise it. Because revision is about getting from good to better, and it's only finished when you decide to stop. But where to begin? In On Revision, William Germano shows authors how to take on the most critical stage of writing anything: rewriting it. For more than twenty years, thousands of writers have turned to Germano for his insider's take on navigating the world of publishing. A professor, author, and veteran of the book industry, Germano knows what editors want and what writers need to know: Revising is not just correcting typos. Revising is about listening and seeing again. Revising is a rethinking of the principles from the ground up to understand why the writer is doing something, why they're going somewhere, and why they're taking the reader along with them. On Revision steps back to take in the big picture, showing authors how to hear their own writing voice and how to reread their work as if they didn't write it. On Revision will show you how to know when your writing is actually done—and, until it is, what you need to do to get it there.

Voice Studies May 14 2021 Voice Studies brings together leading international scholars and practitioners, to re-examine what voice is, what voice does, and what we mean by "voice studies" in the process and experience of performance. This dynamic and interdisciplinary publication draws on a broad range of approaches, from composing and voice teaching through to psychoanalysis and philosophy, including: voice training from the Alexander Technique to practice-as-research; operatic and extended voices in early baroque and contemporary underwater singing; voices across cultures, from site-specific choral performance in Kentish mines and Australian sound art, to the laments of Kraho Indians, Korean pansori and Javanese wayang; voice, embodiment and gender in Robertson's 1798 production of Phantasmagoria, Cathy Berberian radio show, and Romeo Castellucci's theatre; perceiving voice as a composer, listener, or as eavesdropper; voice, technology and mobile apps. With contributions spanning six continents, the volume considers the processes of teaching or writing for voice, the performance of voice in theatre, live art, music, and on recordings, and the experience of voice in acoustic perception and research. It concludes with a multifaceted series of short provocations that simply revisit the core question of the whole volume: what is voice studies?

The SAGE Encyclopedia of Higher Education Jul 28 2022 With over 600 signed entries, The SAGE Encyclopedia of Higher Education demonstrates the impact higher education has had on global economies and universities across the world. Topics include: • students burdened with higher tuition fees • departments expected to produce courses and research that have clear and demonstrable social impact • what the university is and how it meets social and business requirements This encyclopedia touches on all aspects of higher education through: • key concepts • debates • approaches • schools of thought on higher education • role of universities As an interdisciplinary field, these volumes will prove to be an essential resource for students and researchers in education, sociology, politics and other related fields across the humanities and social science disciplines.

Asia Journal of Global Studies Mar 31 2020 Published twice yearly, the Asia Journal of Global Studies (AJGS) is the official journal of the Asia Association for Global Studies (AAGS). The journal features research articles on Asia and other world regions from an Asian perspective. AJGS' other regular offerings include guest columns by global studies experts in Asia, reader commentaries, and book reviews. Multidisciplinary in scope, AJGS accepts contributions from authors with backgrounds in the humanities and social sciences. The journal encourages historians, political scientists, sociologists, anthropologists, linguists, philosophers and others to submit their work for consideration. It particularly welcomes research that dissolves academic boundaries, looks beyond traditional notions of the nation state, and aims for a holistic view of the past, present and future. All submissions to AJGS are peer reviewed and judged for their originality, quality of writing and relevance for AJGS' overall objectives.

Journal of Biblical and Theological Studies Jan 10 2021 The Journal of Biblical and Theological Studies (JBTS) is an academic journal focused on the fields of Bible and Theology from an inter-denominational point of view. The journal is comprised of an editorial board of scholars that represent several academic institutions throughout the world. JBTS is concerned with presenting high-level original scholarship in an approachable way. Academic journals are often written by scholars for other scholars. They are technical in nature, assuming a robust knowledge of the field. There are fewer journals that seek to introduce biblical and theological scholarship that is also accessible to students. JBTS seeks to provide high-level scholarship and research to both scholars and students, which results in original scholarship that is readable and accessible. As an inter-denominational journal JBTS is broadly evangelical. We accept contributions in all theological disciplines from any evangelical perspective. In particular, we encourage articles and book reviews within the fields of Old Testament, New Testament, Biblical Theology, Church History, Systematic Theology, Practical Theology, Philosophical Theology, Philosophy, and Ethics.

The Cold War Oct 07 2020 The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In The Cold War, Westad offers a new perspective on a century when great power rivalry and ideological battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically, and offers an engaging new history of how today's world was created.

Climate Urbanism Nov 27 2019 This book argues that the relationship between cities and climate change is entering a new and more urgent phase. Thirteen contributions from a range of leading scholars explore the need to rethink and reorient urban life in response to climatic change. Split into four parts it begins by asking "What is climate urbanism?" and exploring key features from different locations and epistemological traditions. The second section examines the transformative potential of climate urbanism to challenge social and environmental injustices within and between cities. In the third part authors interrogate current knowledge paradigms underpinning climate and urban science and how they shape contemporary urban trajectories. The final section focuses on the future, envisaging climate urbanism as a new communal project, and focuses on the role of citizens and non-state actors in driving transformative action. Consolidating debates on climate urbanism, the book highlights the opportunities and tensions of urban environmental policy, providing a framework for researchers and practitioners to respond to the urban challenges of a radically climate-changed world.

On Metaphysical Necessity Nov 19 2021 Emphasizes the importance of metaphysical necessity to both philosophical theology and, through it, to moral and political theory. In this collection of essays, Franklin I. Gamwell offers a defense of transcendental metaphysics, especially in its neoclassical form, and builds a case for its importance as a tool for addressing abiding problems in philosophical theology and morality—including talk about God, human fault, moral decision, and the relationship of politics and religious freedom. In Part I, Gamwell argues against Kant and a wide range of contemporary philosophers, for the validity of transcendental metaphysics designated in the strict sense. He engages with Aquinas, Schleiermacher, Augustine, and Reinhold Niebuhr to argue that neoclassical metaphysics, for which the divine whole is itself temporal or forever self-surpassing, provides a more coherent account of God than does classical metaphysics, for which the divine whole is completely eternal. In Part II, Gamwell looks at transcendental metaphysics designated in the broad sense. In particular, he takes up the moral opportunity with which humans are presented, and argues that the moral law depends on a comprehensive good, that is, a good defined metaphysically in the strict sense. He then offers an extended discussion of the relation between transcendental metaphysics and morality, and explores Ronald Dworkin's view of the relationship between democracy and religion, the question of whether religious activities are properly exempt from generally applicable laws, and the constitutional debate about national and states' rights. Franklin I. Gamwell is Shailer Mathews Distinguished Service Professor Emeritus of Religious Ethics, Theology, and Philosophy of Religion at the Divinity School of the University of Chicago. His many books include Religion among We the People: Conversations on Democracy and the Divine Good; Existence and the Good: Metaphysical Necessity in Morals and Politics; and The Meaning of Religious Freedom: Modern Politics and the Democratic Revolution, all published by SUNY Press.

Vernon Subutex 1 Jun 22 2019 "Virginie Despentes's Vernon Subutex trilogy is the zeitgeistiest thing I ever read. Everything about it is contemporary, right down to the fearless woman author who doesn't think of herself as a feminist and gives an impression at least in interviews of habitually killing rapists . . . [It] has dupes and assholes and racists and the people they hate and a stunning diversity of internal monologues and trans true love. Like the last decade, it searches for a happy ending that isn't merely personal and can't find it . . . These novels with their depth and detail kick TV's sorry ass." —Nell Zink, Bustle, "The Best Books Of The 2010s" From the provocative writer and filmmaker Virginie Despentes comes volume one of her acclaimed trilogy of novels, Vernon Subutex—short-listed for the Man Booker International Prize. But who is Vernon Subutex? Vernon Subutex was once the proprietor of Revolver, an infamous music shop in Paris, where his name was legend throughout Paris. By the 2000s, however, with the arrival of the internet and the decline in CD and vinyl sales, his shop is struggling, like so many others. When it closes, Subutex finds himself with nowhere to go and nothing to do. Before long, his savings are gone, and when the mysterious rock star who had been covering his rent suddenly drops dead of a drug overdose, Subutex finds himself launched on an epic saga of couch-surfing, boozing, and coke-snorting before finally winding up homeless. Just as he resigns himself to life as a panhandler, a throwaway comment he once made on Facebook takes the internet by storm. The word is out: Subutex is lugging around a bunch of VHS tapes shot by that same dead rock musician—his last recordings on this earth. Soon a

crowd of wild characters, from screen writers to social media groupies, from porn stars to failed musicians to random misfits, are hot on Vernon's trail . . . but Vernon is none the wiser.

Poles in Illinois Oct 19 2021 Illinois boasts one of the most visible concentrations of Poles in the United States. Chicago is home to one of the largest Polish ethnic communities outside Poland itself. Yet no one has told the full story of our state's large and varied Polish community—until now. Poles in Illinois is the first comprehensive history to trace the abundance and diversity of this ethnic group throughout the state from the 1800s to the present. Authors John Radzilowski and Ann Hetzel Gunkel look at family life among Polish immigrants, their role in the economic development of the state, the working conditions they experienced, and the development of their labor activism. Close-knit Polish American communities were often centered on parish churches but also focused on fraternal and social groups and cultural organizations. Polish Americans, including waves of political refugees during World War II and the Cold War, helped shape the history and culture of not only Chicago, the “capital” of Polish America, but also the rest of Illinois with their music, theater, literature, food. With forty-seven photographs and an ample number of extensive excerpts from first-person accounts and Polish newspaper articles, this captivating, highly readable book illustrates important and often overlooked stories of this ethnic group in Illinois and the changing nature of Polish ethnicity in the state over the past two hundred years. Illinoisans and Midwesterners celebrating their connections to Poland will treasure this rich and important part of the state's history.

Wesley and Methodist Studies May 26 2022 "Wesley and Methodist Studies " ("WMS") publishes peer-reviewed essays that examine the life and work of John and Charles Wesley, their contemporaries (proponents or opponents) in the eighteenth-century Evangelical Revival, their historical and theological antecedents, their successors in the Wesleyan tradition, and studies of the Wesleyan and Evangelical traditions today. Its primary historical scope is the eighteenth century to the present; however, "WMS" will publish essays that explore the historical and theological antecedents of the Wesleys (including work on Samuel and Susanna Wesley), Methodism, and the Evangelical Revival. "WMS" has a dual and broad focus on both history and theology. Its aim is to present significant scholarly contributions that shed light on historical and theological understandings of Methodism broadly conceived. Essays within the thematic scope of "WMS" from the disciplinary perspectives of literature, philosophy, education and cognate disciplines are welcome. "WMS" is a collaborative project of the Manchester Wesley Research Centre and The Oxford Centre for Methodism and Church History, Oxford Brookes University.

Mobilities: New Perspectives on Transport and Society Dec 09 2020 Bringing together the leading authors currently working at the intersection of social science and transport science, this volume provides a companion to the well-established and extensive international Transport and Society series. Each chapter, and the volume as a whole, offers closer and richer consideration of the issues, practices and structures of multiple mobilities which shape the current world but which have typically been overlooked or minimised. What this approach seeks to do is not only draw attention to many new areas of research and investigation relating to mobile lives, but also to point to new theories and methods by which such lives have to be researched and examined. Such new theories and methods are relevant both to rethinking 'transport' studies as such but are also recasting 'societal' studies as 'transport' so that it comes out of the ghetto and enters mainstream social science.
